Subject: Legislative Decree 144/07 API Data – List of Countries identified at risk –

In order to contrast illegal immigration, Legislative Decree 144/07, implementing Directive 2004/82 / EC, established the obligation for air carriers to communicate in advance the data relating to persons incoming in Italy.

Based on the analysis of migratory risk, the Ministry of the Interior provides to update the list of countries at risk, thus it is necessary to give timely and updated information to the airlines operating on the national territory from those countries.

With the aim of obtaining the API data to be processed by the BCS system please find annexed the current list of countries identified at risk.

Any information regarding the accreditation to the system and the methods of sending the data can be requested through the SITA email address [bcairlines@sit.aero](mailto:bcairlines@sit.aero).

IBAR and ASSAERO are kindly requested to give the maximum diffusion to the updated list of countries identified at risk recollect the Air Carriers the needs to submit the API data according to the mentioned Law.

Best regards

Director A. Marotta
